*Note:
The definition of "Functionality" is not currently standardized for the entire Health Sector Working Group. However, discussions are ongoing to adopt a definition of a functioning health facility as that being where facility staff are operating/seeing patients and providing pharmacological treatment.

This map shows 529 facility updates that were received by September 15, 2005 by HIC-Liberia from the general members of the health sector working group. As more updates are received, this map will be updated accordingly.
